

## Preacher Missing; Woman Member of Flock Disappears

Passaic Minister, Father of  
Eight Children, Mailed  
Resignation; Wife Did  
Not Know of His Trip

The congregation of the Netherlands Reformed Church, Passaic, N. J., learned yesterday that the pastor, Rev. Cornelius Densel, had mailed his resignation to the trustees Friday and departed. His wife said yesterday that she did not know where he had gone. A married daughter, one of the clergyman's eight children, said he had stopped at her house Friday, kissed her three times and said he was going away.

It was about 2 p. m. that the clergyman made his mysterious departure. At about the same hour Trina Hannenburg, twenty-six-year-old daughter of Mr. and Mrs. John Hannenburg, announced to her mother and sister that she was going away, packed up her clothes and did so.

She did not say where she was going. Her sister said, however, that the young woman told her that she might never come back. She is younger than some of Mr. Densel's children and is a member of his church, where she has taken part in numerous activities.

Carl Tilton, the station agent of the railroad at Passaic, said that the clergyman bought two tickets to New York Friday afternoon. One of them was a reduced fare ticket such as is sold to clergymen and the other was sold at the regular rate. Henry Drost, secretary of the consistory of the church, gave out this statement: "I cannot believe any of the stories

that are spreading around about the Rev. Mr. Densel. He was an upright man. He came here eleven years ago and built up the church wonderfully. He was loved by everybody. On Wednesday night he preached at the prayer service. I met him then and he was in fine spirits.

"Late last night I received a special delivery letter from Mr. Densel. I cannot tell you all that was in the letter, but it included his salary for the last two weeks, which was due him yesterday."

## Wife and Son Are Held For Death of Farmer

Body of Alleged Victim Found  
in Abandoned Well by  
His Brothers

SPRINGFIELD, Mo., Nov. 13.—Mrs. Mary McCormick, wife of John McCormick, a farmer, whose body was found in an abandoned well near Monett, Mo., and their fifteen-year-old son, Sheridan, were held in the Barry County jail at Cassville today to await preliminary hearing on charges of first degree murder. They were arrested and held in bonds of \$10,000 after a grand jury investigation of McCormick's death.

McCormick had been missing several days before a search was instituted by his brothers. His body was found in the old well ten days ago.

LANGDON, N. H., Nov. 13.—Slow progress was made today by Sheriff Albert L. Barton and his deputies in their search for the body of Mrs. William B. Whitney, who disappeared four years ago. The first abandoned well which they cleared out yesterday, following a clue in an alleged story by Mrs. Whitney's fifteen-year-old stepson, John, to the effect that Mrs. Whitney had been beaten to death and the body put in the bottom of a well, yielded nothing, and they began work today removing rocks and debris from another well on the Whitney farm.

## Kermit Roosevelt In New \$1,000,000 Shipping Project

Incorporation Papers Filed  
in Delaware; Associate  
Says World-Wide Opera-  
tion of Vessels Is Planned

A new steamship line to be known as the Roosevelt Steamship Company, with a capital of \$1,000,000, was formed yesterday in Delaware. The three incorporators are Captain Kermit Roosevelt, son of the late Colonel Theodore Roosevelt; Russel Goldman and Max Zallie.

Incorporation papers, which were technically formal and gave few details, were filed in the State House at Dover late in the afternoon. They announced briefly that the company plans to "build, own and operate steamships."

An attempt to obtain full particulars of the contemplated venture at the home of Captain Roosevelt, 161 East Seventy-fourth Street, proved futile, it being said he was out of town.

Mr. Goldman, however, was identified as being associated with Herman Goldman in his law practice at 120 Broadway, where he is a member of the firm. At his office a formal statement was issued, which said:

"The Roosevelt Steamship Company plans to operate on a worldwide basis. It plans to acquire ships, and to build them if necessary. In the absence of Mr. Goldman, however, it is impossible to say whether or not the company expects to get any of the steamships controlled by the Shipping Board."

It was known that Mr. Roosevelt had

been interested in steamship lines and their business for some time, but not as an operator. For some time past he has been interested in the American Ship and Commerce Corporation, which is the holding company of the Grampa Shipbuilding Company, and the Kerr Navigation Company. The latter company he became identified with last fall, in the capacity of secretary. At the time that the W. A. Harriman interests acquired the holdings of H. F. Kerr, of the Kerr Navigation Company, Captain Roosevelt resigned his position.

## Student Believed Slain In Quarrel Over Woman

Detectives Say Evidence Proves  
Drewes Was Murdered in  
an Apartment House

PHILADELPHIA, Nov. 13.—Evidence that Elmer C. Drewes was killed in an apartment house during a quarrel in which a woman was involved had been obtained by detectives working on the murder case, it was reported today. Investigators of the killing of the

young Dartmouth College senior, whose body, with a bullet through the head, was discovered in Oak Lane on October 17, are so confident this evidence is fully confirmed that they believe they have completed their case.

The prosecution gained a point yesterday when it succeeded in getting two witnesses from New York City to identify William P. Brines, a student at the University of Pennsylvania, whom they have arrested in the case. These witnesses saw Brines, despite a successful effort by William A. Gray, his counsel, to prevent the prisoner being secretly exhibited to them in court.

Brines, during the controversy in court, was sequestered in the County Clerk's office on one side of the courtroom, where the legal battle was staged. Officially, Brines could not be seen by judge, attorneys or spectators, but there were glass doors in the office through which Brines could be glimpsed.

Judge Finletter ruled that witnesses might see Brines at Moyamensing prison for the purpose of identification without his attorney being present. This will enable the prosecution to work up its case without the defence being able to keep a list of the prosecution's witnesses.

## Six Murderers to Die Dec. 9 In Sing Sing Electric Chair

OSSENING, N. Y., Nov. 13.—Six men will be electrocuted at Sing Sing prison on the night of December 9, it was announced today. They are Michael Cassalino, convicted of killing Mr. and Mrs. John Hoback at South Ozone Park; Andrew Di Carlo, who shot Willie Hughes at Elmira; James, alias "Red," Cassidy; Charles McLaughlin, Joseph Milano and Joseph Uefol, all of the Bronx. The last four named were convicted of killing Otto Fiala, aged ticket agent of the Intervale Avenue subway station.

## A word about repricing

Insistent demand for lower prices has brought conditions that the merchant must face, but which cannot last if he is to survive. Cutting prices "to the quick" can only be offset by greatly increased volume of sales. To cut 25% or 33 1/3% from prices that were absolutely fair is a dangerous policy unless volume warrants, and a reduction of 50% can find no justification except for some special reason, such as closing out discontinued lines or patterns.

It is the probability that the manufacturing costs of another year will not warrant prices as low as these—at any rate, we have forestalled by at least a year the chances of a price drop.

## THE STEINWAY DUO-ART REPRODUCING PIANO

THE Steinway Duo-Art Reproducing Piano reflects the skill, experience and resources of the two leading houses of the music industry. It is a pianoforte of highest standing, and a Duo-Art Pianola—the supreme achievement of The Aeolian Company.

As a piano for hand-playing, it is the superb product of Messrs. Steinway & Sons. Further comment as to the artistic quality of the instrument as a piano would be superfluous.

It is, in addition, a Piano of the most advanced type with all the advantages for artistic self-playing and interpretation that this is recognized as implying.

This instrument's latest and most impressive function, however, is its ability to reproduce the actual performances of pianists with absolute and startling fidelity.

The greatest pianists of the world are col-
